*This research aims to analyze the influence of Corporate Social Responsibility on the Volume of Stock Trading on Agricultural Companies Listed on the Indonesia Stock Exchange. The research used quantitative research methods implemented through data collection with secondary data, namely the Financial Statements of food and beverage sector manufacturing companies listed on the Indonesia Stock Exchange (IDX) for the period 2014-2019. The samples in this study are balance sheets and profit/loss statements of agricultural companies listed on IDX during the period 2017 to 2019, analyzing the data using simple Linear Regression statistical methods and hypothetical testing. The results showed that Corporate Social Responsibility had no effect on the Trading Volume of Agricultural Companies listed on the Indonesia Stock Exchange for the period 2017-2019 with a value of  $t$  of 0.190 with a table  $t$  of 2,039 ( $t$  count <  $t$  table).*

*Keywords: Corporate Social Responsibility, and Stock Trading Volume*
