ABSTRACT

The application of experiential marketing at the Dasarasa Cafe is a form of assessing consumer attitudes on the perceived experience and the benefits obtained from the Dasarasa Cafe. Social media marketing applied at Kafe Dasarasa is the consumer's perception of social media used by Kafe Dasarasa in building memory, recognition, and action for business. This study is intended to look at the consumer responses of Kafe Dasarasa on experiential marketing and social media marketing that has been implemented by Kafe Dasarasa, in order to determine the effect on repurchase interest.

The research method used is quantitative, the data analysis method uses descriptive analysis and multiple linear regression analysis. The sample used in this study amounted to 100. The measurement scale used a Likert scale, the data collection method was carried out by means of a questionnaire. The data is processed using SPSS.

Based on the analysis, it can be concluded that the application of experiential marketing and social media marketing at Kafe Dasarasa has been implemented well. This can be seen from the positive responses of respondents for each indicator of the experiential marketing and social media marketing variables. The consumer's repurchase interest in Kafe Dasarasa based on the results of statistical analysis is influenced by experiential marketing and social media marketing variables by 50.1% and the remaining 49.9% is influenced by other factors.

Keywords: *Experiential Marketing, Social Media Marketing, Repurchase Intention*
